

AVOIDING COLD AND DAMP HOMES THIS WINTER

With fuel prices still rising many Chelmsford residents face another difficult winter where their health is threatened by cold and damp living conditions. Cold homes increases the risk of heart attacks and strokes, while condensation dampness and mould growth can cause ill-health and property damage.

Chelmsford City Council would like to invite you to:

Tackling Cold and Damp Homes Tuesday 3rd December 2013 9.30-12.00 Civic Centre, Duke Street

The programme will include presentations on:

- Health risks associated with cold, damp and mould
Chris Singleton, Mid Essex Clinical Commissioning Group
- Assessing cold and damp. Suitable solutions and prevention ranging from tenant advice to landlord improvements
Peter Chisnall, Climate Energy
- Making solutions count across Chelmsford
Torben Wood, Chelmsford City Council

This pioneering event will allow Landlords, medical professionals, volunteer groups and home improvement agencies to explore integrated solutions to cold and damp in Chelmsford.
